

Reviews and Testimonials for
Connecting the Dots: A Handbook of Bible Prophecy
Eye-Opening New Book Unveils the Big Picture of Biblical Prophecy
Title has served as a primary resource for Bible students and teachers
<http://www.prweb.com/releases/2010/ConnectingTheDots/prweb8008368.htm>

Given that approximately one-third of the Bible contains prophecies, it is amazing that so little attention is paid to the great prophetic passages in the Bible from many of the pulpits of the land. Knowledge of what the future holds is the best way to prepare mankind to be ready for what is to come. Within the pages of the new Xulon Press book, *Connecting the Dots: A Handbook of Bible Prophecy* (\$18.99, paperback, 978-1-60957-978-4), co-authors Ron Graff and Lambert Dolphin have designed a self-help course for those who would like to understand the big picture of prophecy, especially as it deals with Israel, the church, and the coming events of the end times. It is a guide for proper understanding and interpretation of prophecy that will enable the reader to understand what exactly is happening in this world today. "This book is a revision and major update to one that we wrote 13 years ago and posted on the Internet," the co-authors say. "That book was *Thy Kingdom Come, Thy Will Be Done: The Prayer Offered Most Often Is About to Be Answered*. It has served as a primary resource to Bible students and teachers for all those years, and has been downloaded more than 300,000 times. The precepts given in the book have proven accurate, and have not needed any change during these tumultuous years, but so much has happened that a new version is needed." - From PR Web

Copied from various sites:

"I have personally known Ron Graff as a friend for many years. He is a man of integrity with a genuine pastor's heart and passion to see people come to know Jesus as Lord. He also happens to have a grasp of current world events and Bible prophecy like few others. His compelling book will heighten your sense of urgency about sharing the love and

truth of Christ with a fallen humanity as the present age draws to a close.”

- Gary H. Kah, author of *En Route to Global Occupation and The New World Religion*, expert on globalization, international speaker and frequent talk show guest (www.garykah.org).

Customer Rating | ★★★★★

This book, connecting the Dots is obviously the culmination of a lifetime interest and deep study of not only prophecy, but of current events and their relationship to the unfolding of Biblical prophecy. It is scholarly but not so difficult for most students of the Bible to understand. The information is organized and is written in a logical progression. The excitement of the coming end times and the events leading up to it build throughout the chapters and reaches a peak with Chapter 15, the Coming of the king of Kings.

- Joan Clucas

Helpful to see the place of both Israel and the Church in Prophecy

Customer Rating

Posted 03/19/11: This book shows that Israel has not been replaced by the Church. They are both important in God's plans for the future.

-ydelivered

Reading your book has definitely been a worldview changing experience similar to when I first heard teaching on the Holy Spirit, global evangelization, and the calling of God. You have taken a difficult subject and presented it in a format that is thorough, easy to use, easy to understand, chock full of Scripture

references, and did I mention thorough. Even though I am only halfway through the book, I can already

tell that all of my questions will be answered and addressed. As I read I find myself breathing multiple sighs of relief as concept after concept that I have often wondered about becomes clear. It's also fantastic that you outline and clearly and concisely define all of the confusing terms and trains of thought regarding various eschatological views. I can't tell you the relief I feel knowing that I will be able to teach and lead my family through the coming end times, armed with correct knowledge. It truly was a God-thing when you came to visit grandpa and gave me the book. Thank you, thank you, thank you. – Jeremy Meister

MUST READ!

Amazon Customer Rating | ★★★★★

This is a great book on bible prophecy and how it relates to today's happenings and today's society. It will fill in some blanks for you or at least get you to thinking about your future. – Sara

A MUST read book. The authors tell it like it is

Amazon Customer Rating

April 6, 2013

It is easy to see that the authors believe that the God of creation, and the creator of all the languages at Babel, also understands all the languages, and is capable of expressing himself clearly in those languages. The authors do not try to say that God did not mean what He said about Israel in His covenants with them, and try to replace Israel with the Church by trying to put their own spin, or interpretation onto these covenants, or on any other part of Bible or the prophecies they don't like or understand for that matter. The authors stick to what God said, and believe it as God tells it. Clearly the authors believe that God does not lie, and that what God has said, He shall surely bring to to pass. A great book which scripturally explains God's covenants with Israel, and outlines Israel's future. They then go on to look at God's covenant to true Christian believers, ("The Church, also called the Bride of Christ") and His promises to them for these final days: They show what the future holds for the true believers, showing that God does not pour out His judgments upon the Bride of His Son Jesus, as God has saved them from the wrath to come. The authors then go on to show from Scripture, what God has planned for the end times for the wicked and the unbelievers, showing how the prophecies that Jesus gave about the last days are being fulfilled on every side all around the world today, and other prophecies are lining up for fulfillment just as God said, and that judgment lies ahead for those who refuse to turn from their evil ways I feel that the book does what the authors set out to do, and connects the Scriptures together in a logical and understandable way, holding fast to the truth of Scripture and the veracity of God's word. The book leaves one with a more clear understanding of God's word, and of the timing of the different events for Israel, God's Church, and the wicked and unrepentant. - Lexacon

I have had a difficult time putting the book down since receiving it. It is spot on and with the easy reading is worthwhile for any Bible Student or someone interested in understanding the political and religious culture of the end times. I can't wait to finish the book and verify it with the scriptures mentioned. – Adriana E. Ras

What's It All Mean?

This is a great primer on the prophetic. It clearly covers the past, present and possible future using history and scripture. It will be one of my go to sources as things continue to heat up in the world. Trying to place what is happening with what has been foreseen is at best a fractured puzzle. This book helps to keep things in perspective.

My Small Way To Repay Idolphin dot org

Oh dear, how many years now have I gleaned from Lambert Dolphin's website Idolphin dot org and the many articles on creationism, Quantum Physics, eschatology, C.S. Lewis quotes and various articles. I feel guilty for never supporting his website with a donation. I have the first edition of this book as free PDF from his website but I'm glad to pay for this updated version. It's the least I could do (as a cheapskate) after all these years of gleaning from his many articles on-line.

"Like the book" is an understatement. Revelation is a mystery I would never have been able to unravel on my own. Your, so-aptly-named, book truly does enable the ordinary, average Christian to "connect the dots," and I (like multitudes of others) am really grateful for all the painstaking work you must have put into such an incredible book. Yet, amazingly, for such a complex subject your book is easy to read. What startled me most out of the whole book was your interpretation of the lesson of the fig tree on pages 26/27. I had not realized that 1948 could be the starting point for everything else. I really wasn't seriously thinking that Jesus could come back in my lifetime.

Marie Scott

To Lambert... My brother,
We are about the same age.....I will be 79 in October. Your newest communication came yesterday and I read it this morning. I am a retired Southern Baptist pastor, now serving a church here in Burlington, NC. We have about 50 people, older, but wonderful and faithful folks. There is such joy in studying the Word...as well as the written words of Scripture in order to share the good news.
I received the copy of *Connecting the Dots* and could hardly put it down. I have taught Revelation through 40+ years of ministry and find your book the best resource I have seen. Thank you for making it available. And thank you for providing another resource to Ray Stedman's sermons...remarkable insights.
Thank you for your testimony....God continues to bless so many through what you write and teach.....and I thank you sincerely.
In Christ,
Dale Steele

Excellent read - Prophecy is critical for every Christian

Amazon Review | ★★★★★

The imminent return of Christ is an increasing concern in my mind. This book did a great job of explaining and bringing together many different threads of thought (from history, to current events, to Biblical passages, and prophecies). It is

insightful and clear to read. I am thankful to the Lord for the diligent study of the two authors and have been inspired to prayerfully dig deeper into the Scriptures and study for myself these things.

- Joshua Benjamin

Great Book

Amazon Review | ★★★★★

A must read for mature Christians. Not just about prophecy but a great history lesson of the Old and New Testament. I am reading it now for the 2nd time.

- Waller Man

I have been a somewhat regular user of Blueletterbible.com . I am involved in Precept Upon Precept Bible study (Kay Arthur) and often use the Greek dictionary on the website. Today, I happened to see an advertisement for your “Connecting the Dots” book. My husband and his friend love to talk about world event and end time prophecies. Sometimes to the point that it drives me crazy. I ordered your book for my husbands birthday. I know he will be thrilled and if I can get it away from him, I know I will enjoy it as well. It is important to view world events in light of prophecy and I hope this book will help fill in the gaps of my knowledge of world history. I wish you a wonderful day.

Thank you,

Sandra Taylor (Lambert Email 9/20/12)

Ron,

I started the book, and just finished the first chapter. I must say that you take an extremely difficult topic and explain it very clearly for the reader. I appreciate you're getting back with me so promptly before. As I read the book, I'll keep you posted. I know that you desire to do the work as unto the Lord, but in these end times, I feel that encouragement in the Body of Christ is important.

May God continue to use you to help brothers/sisters grow in the grace and knowledge of our Savior?
Russ

This review is from: Connecting the Dots (Paperback)

I loved the thought and apparent research of this book. Though I enjoyed the confidence of the authors and appreciated their well laid out presentation, they were over confident in their interpretation of prophecy. I was also a little disappointed in the amount of information given about the Jewish nation and how the past and current history could be applied to end times prophecy. Yes, there was a lot of text about the Jewish nation and some insight I have never really considered, but most of the book was just a review and support of the premillennial view of end times prophecy. If that is what you are looking for, this is an excellent guide. Personally, I lean toward this view. The book is an interesting read and laid out very well with lots of references to resources. I especially like the references to Pastor Ray Stedman and the many references to Scripture that were printed in the text.

Hi Mr. Graff how are you doing? i read your book on Bible Prophecy and was very interested by all of the information. It was the most accurate information on prophecy I've ever read. It reaffirmed some things i already knew and taught me a lot more.

Very well done in tying all the pieces together!

This is a must read for anyone wanting to understand the sign of the times and where we are headed! It's Truth! -- Kelley M Birschbach

• **6/30/14 - Carol A. Stollorz · Friends with Lambert Dolphin**

I stayed overnight at my friend, Charlotte's home. I started reading her copy and asked to take it home. After reading, I purchased several copies to give to others. It is well-written and integrates the recent times with the topics of the prophetic scriptures. It is not easy to organize prophecy into an easily used compendium, so I was amazed at how useful this handbook is. (Even though I have lived a goodly amount of years, I can always use a push-up on recent historical data, also.) - Facebook - Carol A. Stollorz -
